### ABOUT SCNP

SCNP was founded in 1959 in Copenhagen, and has since then been a major driving force within Neuropsychopharmacological Research, Innovation and Education in the Nordic Countries: Denmark, Sweden, Norway, Iceland and Finland. Several remarkable studies has been made by the college and its members, including the discovery and development of the first SSRI antidepressants.

Today, SCNP and its Journal, *Acta Neuropsychiatrica*, continues these proud traditions. You are cordially invited to join.

The meeting is sponsored with unrestricted educational grants from
